

## **Environmental Policy Statement of Intent**

The Company is a professional and environmentally conscious organisation, which acknowledges the impact that our operations may potentially have on the environment. The clear objective of the Company is to minimise any impact on the environment by:

- preventing pollution, reducing waste and ensuring that, wherever practical, measures are implemented to protect and preserve natural habitats, flora and fauna;
- considering the effects that our operations may have on the local community;
- taking action to eliminate or reduce, as far as practicable, any potentially adverse environmental impacts;
- promoting environmental awareness amongst our suppliers, contractors and partners by implementation of operational procedures;
- seeking to work in partnership with the community and behaving in a considerate and socially responsible manner;
- ensuring effective and expedient incident control, investigation and reporting.

Management and supervisory employees have responsibilities for the implementation of the policy and must ensure that environmental issues are given adequate consideration in the planning and day-to-day supervision of all work.

The Company will fully comply with the duties placed upon it within the requirements of Statutory Legislation, utilising as a matter of best practice the requirements and duties set out within Approved Guidance as issued by the Environmental Agency and other organisations.

All employees and sub-contractors are expected to co-operate and assist in the implementation of this policy, whilst ensuring that their own works, so far as is reasonably practicable, are carried out without risk to themselves, others, or the environment.

The Company will take all practical steps to ensure that potential hazards and risks to the environment are identified and that suitable and effective preventative and control measures are implemented. All employees will be provided with the necessary resources, equipment, information, instruction and training to fulfil the requirements of this policy.

The Managing Director has overall responsibility for all environmental matters. The operation of this policy and the associated procedures will be monitored and reviewed on a regular basis to ensure that they remain current and applicable to the company's activities. This policy has been endorsed by the Board of Directors who gives their full support to the implementation of the policy.
